

Guidelines For Parents, Guardians & Visitors

As part of Challenge Training Studios' protection policies for children and vulnerable adults we kindly request that all non-members visiting, spectating, dropping off or collecting at children's sessions and events adhere to the following rules and procedures:

- You are welcome but not encouraged to spectate as some children find parents/guardians presence distracting during class. If you choose to stay at children's classes please stay in the seating area and do not attempt to distract your child during class or take them onto the equipment yourself.
- Please ensure your child is dressed appropriately and arrives in time for the start of each class.
- Please ensure that your child is collected from classes on time. If your child is being collected by someone who does not normally pick them up, please inform the class instructor or gym manager.
- No photography or video recording equipment including photo and video imaging phones may be used during classes.
- Please ensure that your child is aware of and abides by the members code of conduct.
- Please avoid any behaviour that could be interpreted as intimidating, this includes threatening, bullying, trying to gain an unfair advantage and public disparagement of gym/class instructors and other coaches.
- Please inform the staff of any important changes to your child's health, medication, physical needs and behavioural needs, and also of any changes to the address or contact details provided. Please note, if your child has prescribed medication such as an asthma inhaler or epipen they MUST bring this to classes. If they do not, they cannot participate.
- If you wish to raise a concern about any aspect of the gym procedures or regarding a specific incident please contact one of our Designated Safeguarding Children's Officers:
